

GONZO[®] PRO

STAINLESS STEEL GARDEN SHIELD[®] LANDSCAPE BARRIER

**YOUR THE BEST
DEFENSE AGAINST
BURROWING PESTS
IN YOUR YARD
AND GARDEN.**

Rake area removing rocks and debris.

Roll out garden shield and staple in place.

Cover with top soil. Ready for sod or seed.

For Sod or New Lawns

1. Prepare area to be covered with GONZO[®] Garden Shield[®]. Rake area, removing stones and debris.
2. Unroll GONZO[®] Garden Shield(s)[®]. Spread rolls out on areas cleared for new lawn, cutting pieces to size as needed with wire cutters.
3. Overlap layers of GONZO[®] Garden Shield[®] by 4 to 6 inches when you are covering a large area. Secure the Garden Shield to the ground along the edges and at overlaps with U-shaped galvanized landscape staples every 2 to 3 feet.
4. Spread and lightly rake 1 to 2 inches of topsoil over the area to be sodded or seeded.
5. Roll out sod or seed area.

For Garden Beds and Raised Planters

1. Lay out plants in desired locations.
2. Dig appropriate size holes for each plant.
3. Set plants aside. Roll out GONZO[®] Garden Shield[®]. Secure to the ground along the edges and at overlaps with U-shaped galvanized landscape staples. For raised bed planters, fasten to edges of with a standard staple gun and 1/2" staples. Used Landscape staples to secure overlaps.
4. Remove new plants from containers and set into bed over the GONZO[®] Garden Shield[®] material.
5. Fill in around each plant with top soil making sure plants are firmly seated into holes and void of air pockets.
6. Fill in the remainder of the bed with top soil and mulch.
